Contrast

The Ifö Contrast series is based on eight different glass shades. With different bases and light sources they provide more than 30 different variants. To pay tribute to the countryside around Bromölla, each shade has been given a name of a local area.

Ifö Contrast is suitable both in private and public environments - in the bathroom, the entrance, hallways, kitchens, offices, outdoors...

* Also available approved for installation in saunas.

Open

Ifö Open is a stylish light fitting in a timeless design that makes it attractive in any environment.

Ifö Open is based on a series of open glass shades, which together with the grey glazed bases give a total of 15 different models.

White and black glazed bases are available as special orders. The shades are available in matt opal, frosted or clear glass.

Basic

Simple design can be hard to achieve. This insight was used to create the most simple lamp holder imaginable. The lamp holder was named Basic and is merely a link between the power and the light source. Basic is available straight or slanted.

The Basic series is also available as a wooden wire-suspended pendant, with four white glazed Basic lamp holders. The Basic pendant is available in walnut, oak or black stained oak.
